

Connectivity and Banking for the Next Billion

The world's first blockchain platform that enables individuals and businesses to thrive on Web3 by providing broadband internet connectivity.

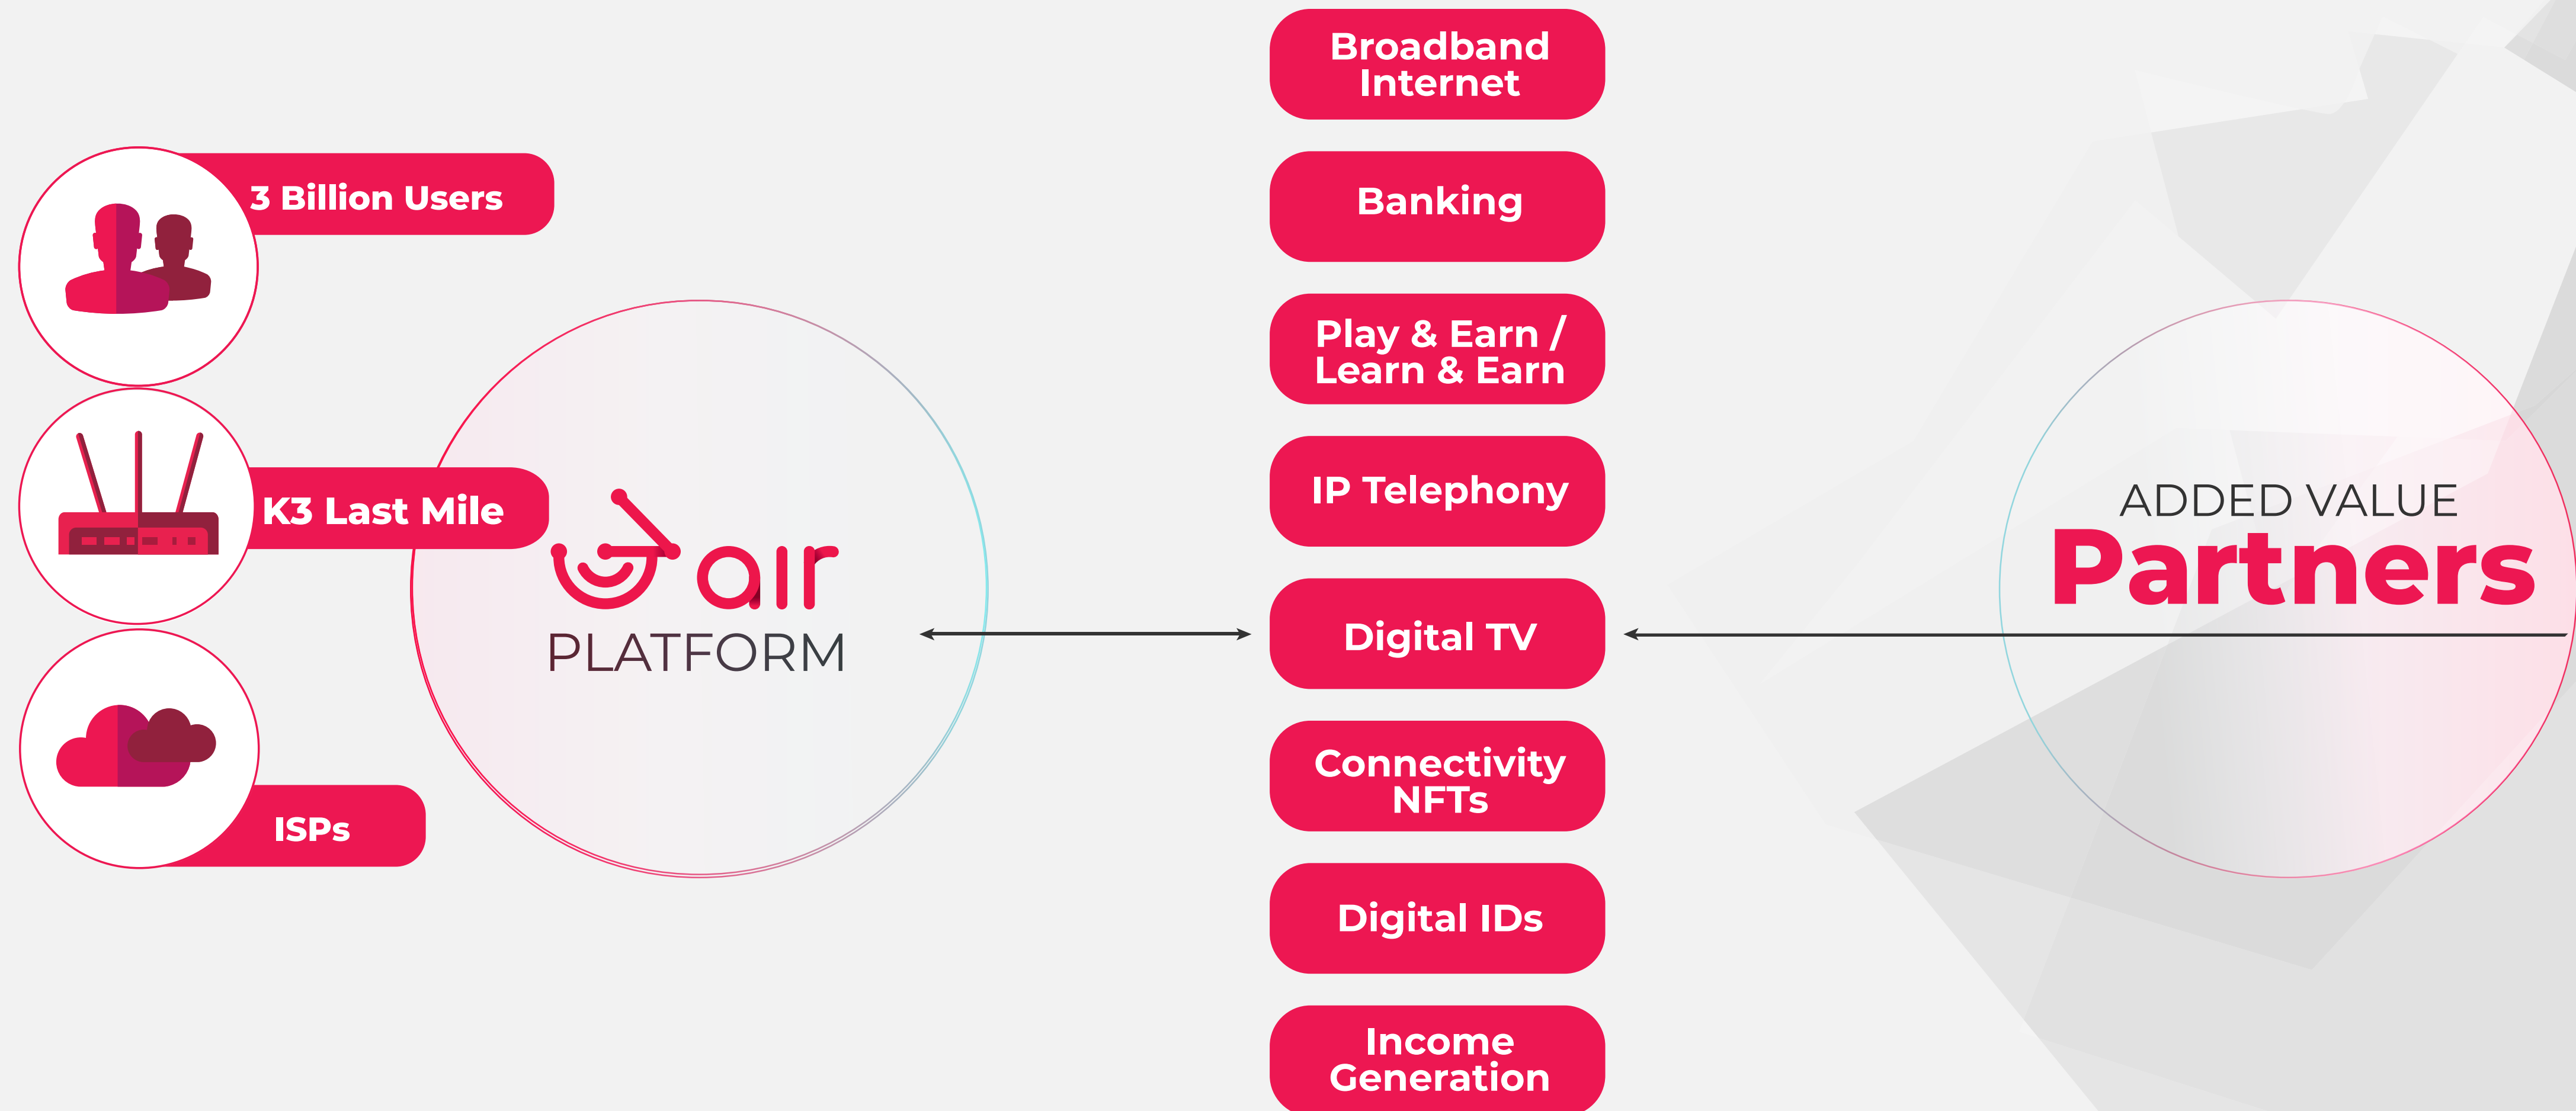

REAL WORLD PROBLEMS
REAL WORLD UTILITY PRODUCT

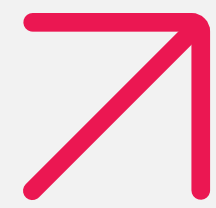

Broadband Internet
IP Telephony
Digital TV
Banking
DIDs
NFTs

Income Generation
Play&Earn
Learn&Earn

BILLIONS OF NEW USERS. UNLIMITED POTENTIAL FOR ALL.

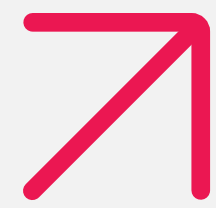

Connectivity & Entertainment

Broadband high-speed Internet,
TV and IP Telephony through the air

- No need to dig trenches
- Digital TV at home and in the app
- IP Telephony to facilitate businesses
- Stable, reliable and affordable

DeFi & Banking

Banking the unbanked - Old promise,
new approach (that works!)

Generate new income streams with:

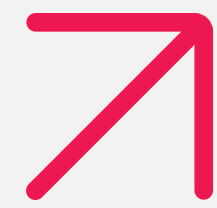

- Bandwidth sharing
- Play and earn and Learn and earn
- Safer lending
- Vast ecosystem growth opportunities
- Staking & farming

Education & Empowerment

Learn about blockchain with
learn and earn incentives

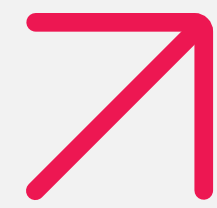

- Staked tokens for each new user
- Tokenized rewards system for grades
- Student sponsoring and job creation

NFTs & Ownership

NFTs grant you access to the
Internet - first time ever!

- Users buy, share, and resell internet services as an NFT
- Affordable, decentralized mesh internet for everyone
- Super fast and stable broadband for businesses

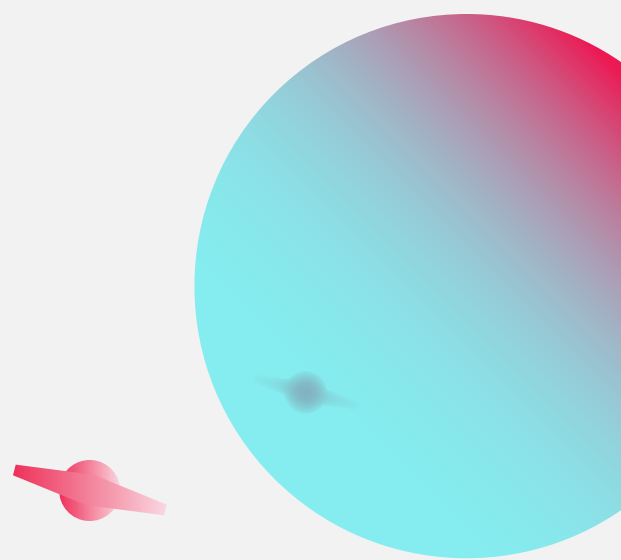

Digital Identities

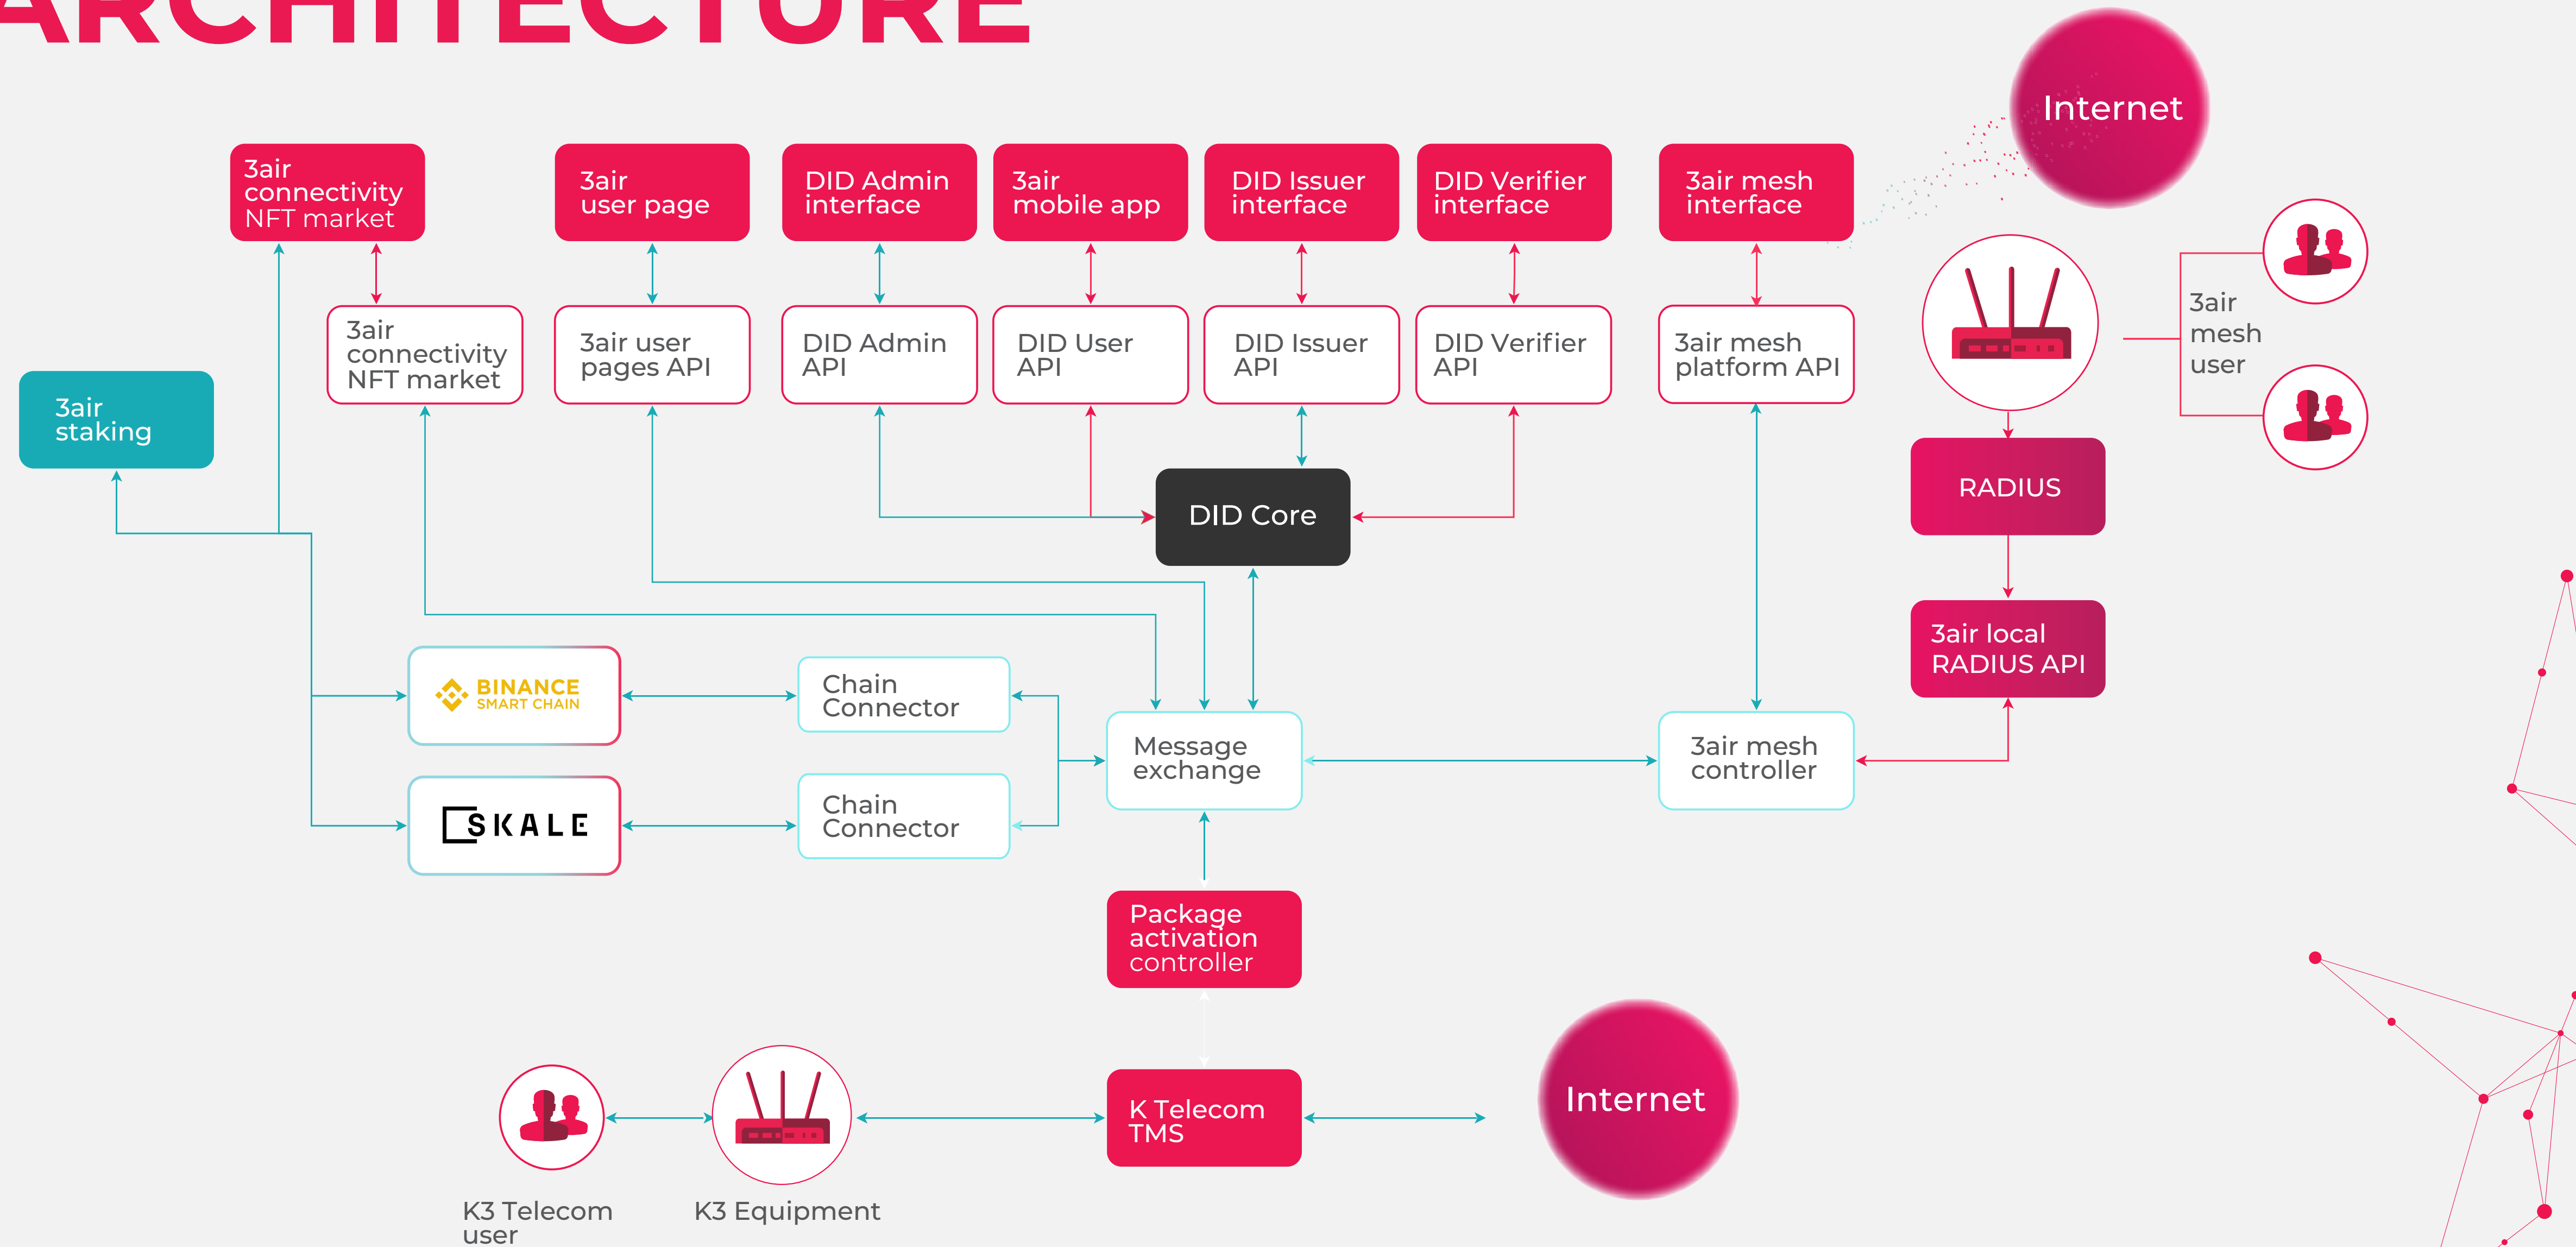

Trustless, secure, and private

- Effective identification solution
- Identity-as-a-service by ISPs for additional revenue
- Potentially recognizable throughout the ecosystem
- Easy, cheap, and trustless from anywhere in the world

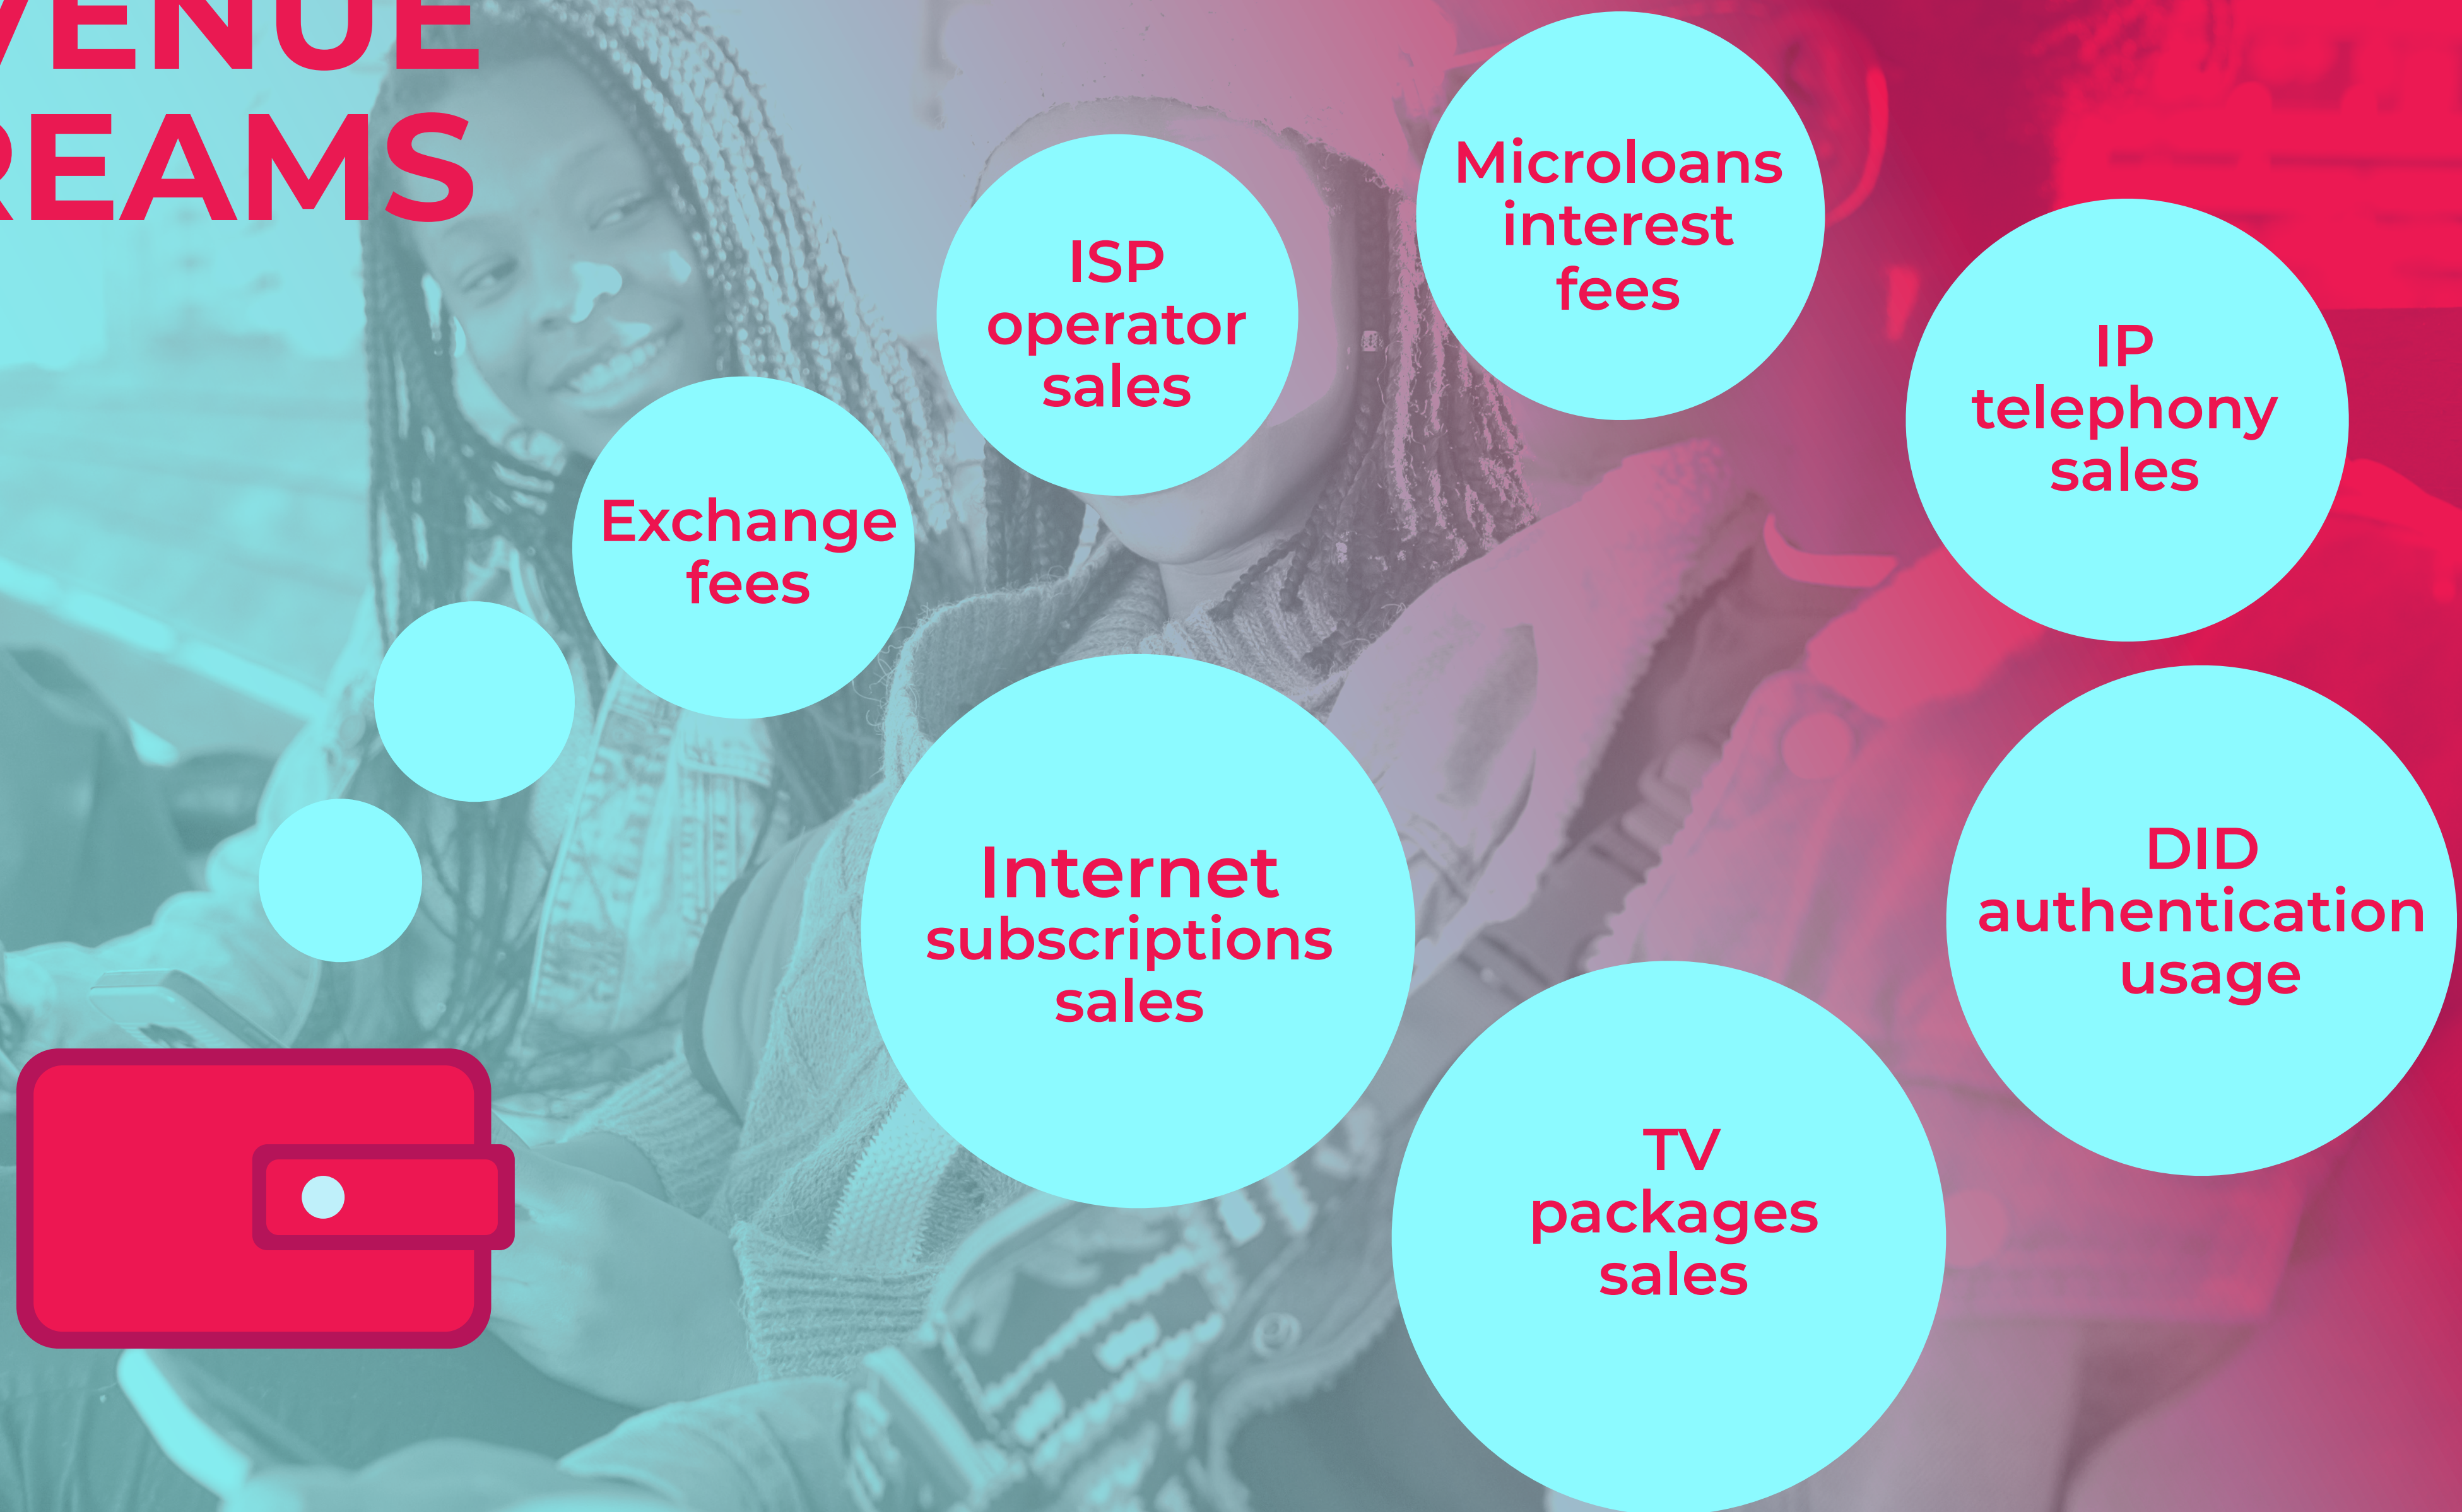

A FRICTIONLESS EXPERIENCE INTO WEB3, ACCESSIBLE TO ALL

ROADMAP & MILESTONES

- **November 2020**
 - Initial idea
- **January – March 2021**
 - Idea development
 - Strategic partnerships
- **April 2021**
 - K3 cooperation agreement
- **May 2021**
 - Core team selected
 - First market analysis
- **June - September 2021**
 - Whitepaper
 - Business plan
 - Marketing plan
 - Second market analysis
 - Seed funding acquired
- **October 2021**
 - Private sale start
 - Start of community building
- **November 2021**
 - Public sale start
- **Q1 2022**
 - Audited token contracts
 - Audited vesting contracts
 - Token claim platform
- **Q2 2022**
 - NFT marketplace beta
 - DID app beta
- **Q3 2022**
 - TGE
 - Early Staking
 - Platform beta testing
 - First CEX listing
 - First DEX listing
- **Q4 2022**
 - SKALE network integration
 - NFT platform launch
 - Multichain bridge
 - Start of infrastructure building in DRC
 - Connectivity NFTs
- **Q1 2023**
 - Governance
 - Token Burning
 - Start of infrastructure building in Ethiopia
- **Q2 2023**
 - 3air platform & app main launch
 - First 3air platform users
 - Agents program
- **Q3 2023**
 - Start of infrastructure building in Nigeria
 - Loyalty program
 - Own your own hardware
- **Q4 2023**
 - Credit scores
- **2024 - 2025**
 - Full microloans implementation
 - Service tokenization
 - 3M users
 - IoT platform
 - Bandwidth distribution through blockchain
 - Roaming through blockchain
 - Open ISP platform

WHAT'S IN IT FOR YOU?

Consumers

- cash-to-crypto onboarding ramp to bring new users online and into crypto
- unique Digital Identity (DID) for online transactions
- access to all the primary platform's services - broadband internet access and banking
- access to all secondary services - identification, TV, telephony, educational material, microloans, income-generating opportunities
- enjoy the innate perks of the blockchain and crypto space including staking, tokenized reward systems, governance rights
- all of the above wrapped in privacy, security and transparency

Businesses

- take full advantage of internet services equal to that in more technologically advanced regions
- access to functionalities like Internet of Things, IP telephony,
- banking and lending solutions
- broadband sharing to their customers

Internet Space Providers

- access to an extensive user base, created exclusively for them
- reach a market that would otherwise be far out of reach
- use of our novel, all-in-one Telecom Management System
- additional revenue generation with secondary services, such as DIDs

Ecosystem Partners

- featured to all users accessing as recommended resources
- become part of an ecosystem based in real world utility
- partake in connecting the unconnected and empowering entire countries
